

Assignment No: 03

Key Insights From Dashboard Report :

1. Global Inflation Overview

- **Current Inflation Trends:** Provide a **global inflation snapshot**, including recent changes in inflation rates across key regions like North America, Europe, and Asia.
- **Inflation Rate Comparisons:** Compare inflation rates between countries or regions. Highlight any significant changes or anomalies, like extreme inflation in specific countries (e.g., hyperinflation in Venezuela, Turkey) or deflationary periods in other regions.

2. Inflation by Sector

- **Commodity Price Influence:** Display trends in commodity prices (e.g., oil, food, metals) and how they correlate with inflation across different regions. This can highlight how global events like supply chain disruptions or geopolitical crises (e.g., the Russia-Ukraine war) affect inflation.

- **Energy & Utilities:** Track the rising costs of energy, electricity, and transportation. These sectors often see significant inflation, especially with rising demand or energy shortages.
- **Housing & Real Estate Impact:** Show how inflation affects the real estate market, specifically property prices and rents. Highlight differences in housing inflation rates in urban vs. rural areas or in different countries.
